B.lux creates an outdoor version of the C_Ball lamp

With the aim of providing warmth to outdoor spaces, the designer lamp manufacturer B.lux has launched an outdoor version of its C_Ball wall lamp. Also designed by the Madrid studio Stone Designs, C_Ball Outdoor W stands out as an ornamental and decorative element, opening up indoor spaces to the outside.

This new lamp is formed by an opal glass sphere, the characteristics of which give it a high degree of resistance against UVA rays, as well as excellent light quality. The metal parts of this outdoor wall lamp are available in different finishes: black, beige, turquoise and a corten-effect finish. C_Ball Outdoor W completes the C_Ball indoor collection, comprised of a table lamp, a floor lamp, two suspension lamps and two wall lamps.

C_Ball Outdoor W is part of the new outdoor lighting collection introduced by B.lux at the 2022 Hábitat Valencia Trade Fair (FHV22). B.lux has been manufacturing and marketing lamps with a contemporary design from the Basque Country (Spain) since 1979. www.grupoblux.com
